## Education

<b>BS</b>	<b>Indian Institute of Technology Kanpur</b> , Statistics & Data Science	2022 - 2026
	<ul style="list-style-type: none"><li>• <b>CPI</b> : 9.0/10.0</li><li>• Honours Track Student</li><li>• <b>Minor</b> : Department of Computer Science - Machine Learning &amp; Applications</li></ul>	
<b>XII</b>	<b>Delhi Public School Bangalore East</b>	2022
	<ul style="list-style-type: none"><li>• <b>Grade</b> : 96%</li></ul>	
<b>X</b>	<b>Delhi Public School Bangalore East</b>	2020
	<ul style="list-style-type: none"><li>• <b>Grade</b> : 90%</li></ul>	

## Scholastic Achievements

- **Academic Excellence Award, IIT Kanpur** - For exceptional performance in Academic Session 2022-23 and 2023-24.
- Was part of the team that represented **IIT Kanpur** in **Mimamsa 2024** hosted by **IISER Pune**, and secured **4th place** among more than **1500** participating teams.
- Achieved All India Rank **646** in **JEE-ADVANCED 2022**
- Achieved All India Rank **1030** in **JEE-MAINS 2022**

## Publications & Pre Prints

- Viral Chitlangia, Mosuk Chow, Sharmishtha Mitra. "Swap Regression Methodology for Predicting Relationship with Historical Bivariate Data." *arXiv preprint arXiv:2508.15479* [🔗](#), August 2025. Aug 2025

## Projects

<b>SWAP Regression   Prof. Sharmishta Mitra   IIT Kanpur</b>	Nov '23 - Aug '25
<ul style="list-style-type: none"><li>• Analyzed the paper written by <b>Mosuk Chow</b>, <b>Bing Li</b> and <b>Jackie Q. Xue</b>, on <b>ON REGRESSION FOR SAMPLES WITH ALTERNATING PREDICTORS AND ITS APPLICATION TO PSYCHROMETRIC CHARTS</b> <a href="#">🔗</a> and developed models with alternating predictors on Bivariate Data using the method of SWAP Regression.</li><li>• Defined a new loss function for the <b>Swap Regression</b> model.</li><li>• Implemented the model to test on real data as <b>US Public Debt and GDP</b>.</li><li>• Applied the model to predict the causality direction of <b>US Public Debt and GDP</b> without prior knowledge.</li></ul>	
<b>Digital Intervention for Loneliness   Prof. Suncica Hadzidedic   Durham University</b>	May '24 - Ongoing
<ul style="list-style-type: none"><li>• Explored <b>Reddit</b> and <b>Google</b> to find relevant subreddits and apps which target <b>loneliness</b>.</li><li>• Scraped <b>Reddit</b>, <b>Google Play</b>, <b>Apple Play</b> and <b>A Lonely Life</b>(a loneliness forum), using relevant Python libraries, and Rvest(R), to collect text data on <b>loneliness</b>.</li><li>• Used <b>Topic Modelling</b> on the data collected to <b>cluster</b> the data into relevant topics, to realise what people are talking about online, to find out which areas of apps people would like to see an improvement in.</li></ul>	
<b>Deep Generative Models for Spatial-Temporal Data   Prof. Swapnil Mishra   NUS</b>	May '25 - Ongoing

- Implementing and analyzing the paper on [AggVAE](#) written by **Swapnil Mishra et al.**
- Working on using the technique to incorporate **AggVAE** with **Population Disaggregation** techniques to get good predictions using Low Resolutions data points.
- Implemented the model on **US Covid Data**, segregated by 9 Regions of the country.

#### Enveloping Techniques for Importance Sampling in MCMC | Prof. Dootika Vats | IIT Kanpur

Aug '25 - Ongoing

- Understood the paper by **Apartim Shukla, Dootika Vats** and **Eric C. Chi** on [MCMC Importance Sampling via Moreau-Yosida Envelopes](#).
- Reading about various enveloping techniques in **optimization**.
- Understanding the properties of various envelopes, and their usability in sampling, especially **Importance Sampling**.

#### MCMC Machine Unlearning | Course Project | Prof. Dootika Vats | IIT Kanpur

Jan '25 - Apr '25

- Understood and Implemented the paper on [Markov chain monte carlo-based machine unlearning: Unlearning what needs to be forgotten](#) by QP Nguyen et al.
- Implemented a novel algorithm for the purpose of Machine Unlearning Sampling by MCMC using the idea of **Newton's Method Update** proposed in [Certified data removal from machine learning models](#) by C Guo Et al.
- Compared the algorithm with other prominent MCMC sampling algorithms with **Logistic** and **Negative Binomial** Regression data.

## Other Experiences

#### Teaching Assistant | MTH 208 | Prof. Dootika Vats | IIT Kanpur

Aug '24 - Nov '24

- Assisted Professor Dootika Vats in teaching the Undergraduate and Postgraduate students enrolled in MTH 208 the basics of the R language.
- Got a hands on experience of teaching a class of enthusiastic students.

## Technical Skills

**Languages:** Python, R, C, C++,  $\text{\LaTeX}$

**Softwares and Libraries:** Matplotlib, Seaborn, Numpy, Pandas, Tensorflow, Librosa, Numpyro, Rvest, Tidyverse, GG-Plot2, Quarto, Shiny App

## Relevant Courses

An Introduction to Bayesian Analysis* Probability Theory Introduction to Machine Learning* Data Structures & Algorithms Elementary Stochastic Processes - I* Linear Regression & ANOVA* Multivariate Analysis	Markov Chain Monte Carlo* Time Series Analysis Probabilistic Machine Learning Theory of Statistics* Elementary Stochastic Processes - II Techniques in AI & Data Mining* Real Analysis*
---	---

\* : Excellent Performance

## Positions of Responsibilities

Coordinator, Stamatics Club

Oct '24 - Aug '25
